SWISS SERIES

- Swiss made motor and gearbox.
- Assembled in-house in the Netherlands.
- The motor has an energy saving system for optimal winding and efficient performance.
- The gearbox has a safety system; the motor will be disconnected when the rotor/watch holder is controlled by hand (ideal for placing and retrieving watches; you don't have to stop or turn off the watch winder).
- The watch winder has a very low sound level (virtually silent).
- Models in wood: 12 layers of paint.
- Models in leather; real leather with padding.
- Control panel with one button to control 9 programs (different direction of rotation and TPD).
- Each rotor individually adjustable in terms of program.
- Battery function for the single and double watch winders (triple and quad models don't have battery function).
- Inside covered by special velvet.
- Glass door
- LED lighting
- Special adjustable luxury watch holders with logo.
- Multi adapter (US, UK, EU, Asia).
- Manual and certificate.
- Luxury packaging in red carton (with Swiss flag), placed in a outer brown carton.
- 3 year warranty.

BENSON SMART TECH II SERIES

The new Benson Smart-Tech II watch winders are powerful but also durable and remain very quiet in the long term. The luminous touchscreen display allows you to set the turning direction and the desired number of turns per day for your automatic watches. With the special power winding feature you can wind your watches very quickly if needed. The LED lighting inside the watch winder provides a unique view on your automatic watches. The specially developed watch holders are suitable for big and small watches, and for gents and ladies watches (big and small wrist size) because of the unique spring system. The drawer provides extra storage space for other watches and jewelry such as rings, cufflinks, bracelets or earrings.

Series / Models	Color	Capacity	Storage	Retail
